

CEYLON TEA REACH

Kandrick Tea Beverages Lanka is a subsidiary of Neelagiri Tea Company(Pvt) Ltd., a family owned tea re-packer and exporter with roots that date back to the early 1970s, when Don Siriyapala first ventured into the tea trade of Sri Lanka. Today, Neelagiri is an established brand in the minds of Sri Lankan tea drinkers. We have come a long way from our humble beginnings, when Don Siriyapala with his family and friends re-packed tea manually for sale to local consumers. It is the fortitude and belief of Don Siriyapala that ensured Neelagiri Tea prospered to its current standing in the Sri Lankan Tea industry.

The Company's expertise is developed on a legacy of determination to succeed, while ensuring our products meet the highest quality standards. The growth of Neelagiri Tea over the years has propelled the Company to focus on furthering its reach in overseas markets. Resultantly, Kandrick Tea Beverages Lanka was established in January 2017 with the strategic purpose to build a unique brand to cater to international tea markets.

Today, Neelagiri Tea and Kandrick Tea offer our exacting customers a wide range of Pure Ceylon Teas. Keeping to current trends flavoured teas and teas in bags, boxes and tins are also offered. It is our vision to cater to all types of tea drinkers the world over. We will continue in this path and establish both Neelagiri Tea and Kandrick Tea as household brands providing the finest quality tea at the highest standards, to meet the tastes and demands of our customers.

ENGLISH BREAKFAST TEA

Bold, twisted leaf appearance and in the cup, reasonably coloury, bright and pungent. The larger pekoe leaf gives this tea less colour and strength than the Uva BOPF also offered on our Tea Menu although many may find the lighter taste of this tea preferable for it retains the Uva character. Very pleasant for drinking at any time of day, suitable for drinking without milk although let your taste dictate whether you add milk or not. Purists would of course condemn the addition of anything that may alter the flavour of this wonderful tea, and we would agree that one should savour the character and flavour first before adding milk or sugar. A great Ceylon tea for general consumption.

PEKOE

The Pekoe Tea offered by us here is a fine grade of Black tea. This grade is made of young tender tea leaves and buds, which were processed to appear shorter, curly and not much wiry. As the tea leaves are heavily twisted and rolled during the traditional black tea manufacturing process, this is the grade that gets the appearance of black peppercorns.

Once brewed, this tea has a rich aromatic forest-like (woodish) scent and the liquor generally has a light golden reddish color and a delicate taste. We have 2 variations of this grade as loose leaf tea, Pekoe (slightly bold looking) and Pekoe-1 (shotty, smaller variety of the Pekoe), if you prefer one of these, please notify us when you order. Mostly we send out Pekoe-1 by default.

Tea leaves and tips are cut into tiny particles and then curled into smaller granular particles. These teas produce a strong and rich liquor with a full bodied bright cup.
